

2021-23

On-farm natural resource management

Overview

Northern Tablelands Local Land Services currently has funding available to develop projects on-farm and we would like landholders to submit an Expression of Interest (EOI) to help us identify and support their natural resource priorities.

This year our main priorities are to protect natural waterways, habitat for threatened species, and Aboriginal heritage. Expressions of interest will be assessed as they are received against set criteria including funding availability, landholder contribution, NSW and Australian Government priorities and value for money.

Eligible Project Activities

Funding is available for on-ground projects that achieve improved natural resource management on farm.

- Improving habitat for threatened species like woodland birds and koalas
- Protecting and managing existing native vegetation
- Planting native trees and shrubs (must be minimum 1ha in size)
- Protecting and improving waterways (minimum 500m)
- Providing alternate water points where stock are excluded from water sources
- Protection of Aboriginal sites or artefacts
- Aboriginal cultural burning

Who is eligible for funding?

Individual landholders in the Northern Tablelands Local Land Services region. The Northern Tablelands Local Land Services region is defined as within the Tenterfield, Glen Innes Severn, Inverell, Armidale Regional, Uralla and Walcha Shires.

Applicants must make an equal or greater contribution (in-kind or financial) for every dollar contributed to the project.
